Dear Garrison.

I rec'd. last evening the reply of Cameron to Butlers last contraband article. It may seem at first glance to supersede the discussion, in which I have been engaged. It marks a decided progress in the anti-slavery working gains of the Administration, but it still hangs fire, & clings to a fundamental error, which I propose to show up in the conclusion of my III Part. On this account I reserve it for next week. I have indicated at the foot of p. 8, where I wish to have the division made.

I hope you will have
patience with me & have
my 20 extras sent on Fri-
day by the Waepland Ex.

Ever Yrs

D. Lee Child

P.S. This note was supposed by
me to have accompanied the
M. S. & was written for that; but
I discovered last evening that I
had left it out. But I did put in
something by mistake in lieu of
it, I know not what. At any rate
I send an envelope in which this
scratch should have gone. Plea-
se destroy the paper which took its
place or keep it till I come in if it
appears of any consequence. D.LC
